Welcome to MyCV!

I'm a passionate Web Designer with a strong focus on crafting visually appealing and fully responsive websites using HTML and CSS. I bring ideas to life through clean code, elegant layouts, and user-friendly interfaces. With a keen eye for design and attention to detail, I transform concepts into modern, pixel-perfect websites that perform across all devices. Whether it's a landing page, a portfolio site, or a business homepage — I make sure each project is both beautiful and functional. I'm always eager to learn new technologies and push the boundaries of what's possible on the web. Let's build something great together!.

About me

Hello! I'm a passionate Web Designer with a strong focus on crafting visually appealing and fully responsive websites using HTML and CSS. I bring ideas to life through clean code, elegant layouts, and user-friendly interfaces. With a keen eye for design and attention to detail, I transform concepts into modern, pixel-perfect websites that perform across all devices. Whether it's a landing page, a portfolio site, or a business homepage — I make sure each project is both beautiful and functional. I'm always eager to learn new technologies and push the boundaries of what's possible on the web. Let's build something great together!

With a keen eye for design and attention to detail, I transform concepts into modern, pixel-perfect websites that perform across all devices. Whether it's a landing page, a portfolio site, or a business homepage — I make sure each project is both beautiful and functional.

I'm always eager to learn new technologies and push the boundaries of what's possible on the web. Let's build something great together!.

Education

BS **Supreme Knowledge Foundation Group Of Institutions**, Bachelor of Computer Applications (BCA)

- 10Th(Little star high school)
- 12Th(Little star high school)

Experience

I have done an internship in travarsa private limited in web developing and I have developed websites using HTML & CSS, including a portfolo page and a dinamic recipe finder website using HTML ,CSS & java Script. These projects demonstrate my ability to create responsive, visually appealing web designs and my eagerness to apply my skills in a professional setting.

Devloped

- Designed and developed multiple responsive websites using HTML, CSS.
- Created a personal portfolio showcasing modern UI/UX principles.
- Built a fashion e-commerce website using html ,css and made it fully responsive.

Projects

E-commerce Website

E-Commerce
