HARSH KUMAR JHA

FULL-STACK WEB DEVELOPER | FRONTEND DEVELOPER | UI/UX ENGINEER

Kolkata, India | +91 6290177421 | jhah14687@gmail.com
GitHub | LinkedIn

PROFESSIONAL SUMMARY

Web developer with a one-year development internship, six months at Digital Edge Solutions, and freelance experience delivering client-facing websites and business applications. Builds responsive frontend interfaces and PHP/MySQL-backed workflows, including role-based portals, reporting systems, API integrations and interactive 3D experiences. Uses AI-assisted development tools for implementation, debugging, code review and iterative testing while validating functionality and security.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, React fundamentals, responsive design

Backend & data: PHP, MySQL, REST API integration, authentication, role-based workflows, CRUD applications

UI/UX & 3D: Figma, wireframing, prototyping, GSAP, Three.js, Spline

Developer workflow & AI: Git, GitHub, VS Code, XAMPP, AI-assisted development with Antigravity and Codex, debugging, testing and code review

PROFESSIONAL EXPERIENCE

Web Designer & Developer | Digital Edge Solutions | 6 months

- Developed responsive frontend components and PHP/API-connected features for websites and web applications.
- Implemented client feedback, improved usability and supported cross-device functionality.

Web Development Intern | Travarsa Private Limited | 1 year

- Built responsive web pages using HTML, CSS and JavaScript, translating designs into working interfaces.
- Developed portfolio and fashion e-commerce interfaces and gained experience with development workflows.

Freelance Web Developer | Client projects

- Delivered business websites and web applications with dashboards, forms, database-backed workflows and responsive interfaces.

SELECTED PROJECTS

Indian Coast Guard — Dornier Training Flight System | PHP, MySQL, JavaScript

- Developed a digital flight-training management application with trainee/coordinator dashboards, sortie grading, syllabus tracking, flight-hour records and report workflows.
- Worked on role-aware access, record consistency and audit-oriented reporting; excludes sensitive operational details.

Prince Security Service — Employee Management Portal | PHP, MySQL, JavaScript

- Built admin, staff and employee workflows for attendance, leave, salary, documents, requests and profiles.

RAI Enterprise — Corporate Website | HTML, CSS, JavaScript, Bootstrap, PHP

- Developed a responsive multi-business website covering manpower, maritime, industrial and infrastructure services.

Bhakti Connect — Puja Booking Platform | PHP, JavaScript, Bootstrap, APIs

- Implemented role-aware dashboards and booking flows with OTP login, Panchang, horoscope and notifications.

MSME Business OS — Business Management Application | PHP, MySQL, JavaScript

- Created supplier management and reporting workflows for sales, expenses and inventory.

Interactive 3D Websites & Automotive Customizer | Three.js, GSAP, JavaScript

- Built responsive 3D experiences, motion-driven landing pages and an interactive vehicle customizer.

ADDITIONAL WORK & RECOGNITION

E-commerce UI, music player, 3D websites, Figma-to-code interfaces and event websites. **Gold Medal of Excellence** — Travarsa Private Limited Rewards & Recognition Program.
